STEPHEN L. WASBY is Professor of Political Science, State University of New York at Albany. He is the author of several books about the Supreme Court and is the editor of Civil Liberties: Policy and Policy-Making (Lexington, 1976), as well as a member of the Editorial Board of this journal. He writes that "he is an expert on the law of obscenity, not on either obscenity or sex (well, at least not obscenity)."

INDEX TO VOLUME EIGHT OF THE POLICY STUDIES JOURNAL

The following indexes of subjects and authors cover the four regular issues and the first two special issues of Volume 8 of the *Policy Studies Journal*. The indexes for the next two special issues of Volume 8 will appear at the end of Volume 9. Those two special issues which are scheduled to be published before the end of the summer of 1980 deal with "Optimizing, Implementing, and Evaluting Public Policy" under the editorship of Dennis Palumbo, and "Regulatory Reform" under the editorship of Mel Dubnick and Alan Gitelson. The six issues covered in this index deal with a variety of policy problems, especially defense and arms control, housing, labor and employment, policy implementation, and the analysis of policy impact.

The subjects index mainly covers the basic concepts included in the titles and subtitles of the symposium and non-symposium articles and in the titles of the books reviewed. The bodies of the articles and book reviews were also consulted to clarify the concepts derived from the titles. The authors index covers authors of articles, authors of books reviewed, and reviewers of books, but not names referred to in the articles. Future annual indexes will appear at the beginning of the first issue of each volume to cover all the issues in the previous volume which have been published before that first issue goes to the press.
